## Dance Competition

Tammy is a fifth grader. She is one of the most popular girls in her class. She is very pretty, but that is not why she is popular. It is because she is known to be among the most talented in her class. She can do the most cartwheels in a row, but mostly, she has the talent to dance.

Last year, she entered the school's dance competition and came in first place. Her whole class was there to support her. Since that day, she has been the class attraction. This year, the school held the dance competition again, but there had been a change. The competition had to be done in pairs. Tammy's class was looking up to her with high expectations of her winning this year, too.

Tammy, however, was unsure of this year's outcome. She wanted to enter the competition, but she had never danced with a partner before. She decided to ask one of her classmates, Eddy, to join the competition. Tammy and Eddy had known each other since the first grade. Eddy was *reluctant* to join at first because he didn't know how to dance. Tammy kept insisting, and he eventually agreed to join the competition.

They practiced every day for two months. Tammy taught Eddy how to dance, and he was a very quick learner. The day of the dance competition had finally arrived. They were extremely nervous before it was their turn to perform. The music started and they performed the dance routine that they had been practicing for the past two months. It was a perfect performance, and they came in first place. Tammy and Eddy were very happy and relieved. Their classmates celebrated their victory.

## Black Friday

The day after Thanksgiving is the start of the holiday shopping season in America. Thanksgiving is always on a Thursday, so the day after is a Friday. This day has come to be known as Black Friday. It has been the busiest shopping day of the year since 2005.

Most stores offer great deals on Black Friday. They open their doors very early in the morning. They try to attract shoppers with big discounts. Some items like TVs are much cheaper than usual. Stores may even lose money on these items, but they hope that shoppers will buy gifts for other people while they are in the store.

One problem with Black Friday is that there are not enough low-priced items to go around. Each store may only have a few. These items are in high demand. People stand in long lines to get such great deals. They may line up for hours before a store opens. They may be hoping to get a low price on a TV or laptop, but not everyone who wants one will get one. Some people leave disappointed.

So where does the name “Black Friday” come from? It was first used in Philadelphia in the 1950s by police because of the heavy traffic it caused. In the 1960s, stores tried to rename it “Big Friday”. It did not stick. The name “Black Friday” continued to spread across the country.

Now people all over the country take part in the event known as Black Friday. It is even spreading to other parts of the world. Stores have held Black Friday events in the U.K., Australia, and Brazil since 2012. In Costa Rica, it is known as “Viernes Negro”. Also, in Mexico, stores offer an annual weekend of discounts.
