

Essay Writing Topic 1

Air pollution has become a global crisis. The high level of
CO <sub>2</sub> emissions is now seriously affecting daily life. Students
in countries such as India, China and Indonesia are being
told to stay home from school when the air quality is poor.
Polluted air now also causes many deaths every year. In order
to deal with this problem, individuals can and should make
efforts to conserve energy. However, this issue also needs an
international approach. The COP24 conference is now taking
place in Spain. It is essential that governments work together
to create policies to solve this global emergency. (99 words)

Essay Writing Topic 2

My most exciting trip was when I visited Okinawa last
year with my family. First, we met some of my mother's
Okinawan friends there. They took us to Shuri Castle during
the day, and I learned about Okinawan culture. On another
day, we went to Sunset Beach. My sister and I made a big
sandcastle, and we swam in the beautiful blue ocean. At
night, we had a barbeque by the beach. We ate traditional
Okinawan foods such as a stir-fry with bitter melon. It was so
exciting. It was a great trip. I was sad to hear that Shuri
Castle burned down last month, but I am especially glad I
was able to see it. (118 words)
